

OptoScribe®

OPTOFAN-3D

Multi-core fibre fan-out

The only robust, reliable solution to connectorising multi-core optical fibre

- Robust patent-pending integrated-optical design
- Low insertion loss (<2dB to SMF-28 fibre)
- Low cross-talk
- Scalable to large numbers of cores

Standard Configuration:

- 1x 4-core MCF to 4x SMF-28 FC/APC Pigtails
- For operation around 1550 nm

Custom Options:

- Single mode operation at other wavelengths
- Customised MCF geometry and number of cores
- Customised single-core fibre types and connectors
- Bespoke solutions available
